It is and will continue to be the greatest and cheapest family journal in the United States. The coming year promises to be crowded with stirring events. In the United States the entrance of new issues into the political arean has been followed by a change of administration. But the great economic question on which the campaign turned is still unsettled, and its solution is now committed to a Congress almost equally divided between the two great parties.

The administration of Cleve. publicans, for most of their leaders are as ed. Now, they voted for him simply from force of habit. The administration of Cleveland has shaken their allegiance to the re-

publican party. "They have come to think that the democrats are not so black as they were painted. They haven't been sold into slavery. They haven't lost any of their rights and privi leges. They have gone right on getting ed ucation and making money. Some colored men have been appointed to office. The consequence is that the average colored man is beginning to be more independent in politics. If Harrison don't do more for him than Cleveland did I fear the old traditions will not hold him four years from now. Harrison gives the southern offices to white democrats he will alienate the colored re-publicans at once. They feel, and feel rightly, that they elected Harrison, and that they are entitled to unusual consideration. Yes it would be well to put a southern republican in the Cabinet; but it would not break the solid South. It isn't the all-important thing some people seem to think.

"This was the only election I ever bet
on," continued Kellogg. "I won, of course. Somehow I thought Harrison would be elected. There was so much discontent and apathy among the democrats, and I knew the colored brethren were going to give the republicans one chance more. It all de pends on the republicans themselves whether they have another. They'll have to fight from now till '92 for it. This talk about a new 25 years lease of power is all rot. The republican party is on probation, and this time for the first time on probation by col-ored men, who hold the balance of power in New York, Indiana and California, to mention no other of the northern States which they control."-Wash, Cor.
